ChiliProject - Bug # 540: Hook helper_issues_show_detail_after_setting gets different parameters in Chili 1.x and 2.0

Status:	Closed	**Priority:**	Normal
Author:	Gregor Schmidt	**Category:**	Journals / History
Created:	2011-07-26	**Assignee:**	Holger Just
Updated:	2011-07-27	**Due date:**	

Remote issue URL:	
Affected version:	2.0.0
Description:	The API of the hook @:helper_issues_show_detail_after_setting@ changed from 1.x to 2.0. The @:detail@ value used to be a @JournalDetail@. Now it as specially laid-out array. This breaks plugins that use this piece of information.
	Attached is a pull request which adds a simple compatibility layer to bring back the old API.
