ChiliProject - Bug # 305: Toolbar for textile edit fields is buggy in IE8

Status:	Closed	**Priority:**	Normal
Author:	Stephan Eckardt	**Category:**	User interface
Created:	2011-03-24	**Assignee:**	
Updated:	2011-03-25	**Due date:**	

Remote issue URL:	
Affected version:	
Description:	Above text fields which support rich text editing using textile markup (like the one for creating a new issue) there is a toolbar (jstoolbar.js) which contains buttons for inserting textile markup like bold, italic, h1, h2. etc. In Internet Explorer 8 these buttons do not work as expected. I.e. after using one of these buttons the caret and the scrolling inside the textarea is at an unreasonable position.

2011-03-24 08:24 pm - Eric Davis

Thanks. Anyone have easy access to IE8 to test this?

Just remembered I have a VM lying around with IE8 on it, I'll give it a shot.

- Target version set to 1.2.0

- Status changed from Ready for review to Closed

Worked as advertised on IE8/WinXP and Chrome/WinXP in the VM, merged in commit:8d6133f. This can go into version#6 too.
