

ChiliProject - Bug # 557: Calendar links for previous/next month contains double escaped characters

Status:	Closed	Priority:	Normal
Author:	Johan Levin	Category:	User interface
Created:	2011-08-04	Assignee:	Eric Davis
Updated:	2011-08-05	Due date:	
Remote issue URL:	https://www.chiliproject.org/projects/chiliproject/issues/calendar		
Affected version:	2.1.1		
Description:	In the "security audit" commit between 2.1.0 and 2.1.1 there was a change to calendars_helper.rb that causes the << and >> characters in the links to the previous and next months on the calendar page read "« July September »" instead of "<< July September>>".

[#557] Fix link_to_month to not escape the HTML arrow characters

History

2011-08-04 08:47 pm - Johan Levin

OK, I think the text formatter replaced the characters escape codes with the actual characters, so ignore that and look at the image instead...

2011-08-05 03:50 pm - Eric Davis

- Target version set to 2.2.0

- Assignee set to Eric Davis

- Category set to User interface

- Status changed from Open to Closed

Thanks, this is fixed and will be in 2.2.0. I was being overly cautious in the security audit.
