

## ChiliProject - Task # 1013: Switch CI to Travis

<b>Status:</b>	Closed	<b>Priority:</b>	Normal
<b>Author:</b>	Felix Schäfer	<b>Category:</b>	
<b>Created:</b>	2012-05-11	<b>Assignee:</b>	
<b>Updated:</b>	2012-05-14	<b>Due date:</b>	
<b>Remote issue URL:</b>			
<b>Description:</b>	Finn has planned to discontinue ci.chiliproject.org in the future, I propose we move to TravisCI.		

### History

- Assignee deleted (*Felix Schäfer*)

- Status changed from Open to Ready for review

See "pull request 191":<https://github.com/chiliproject/chiliproject/pull/191>.

Caveats wrt. current setup:

\* As-is 1.9.3 doesn't work because of some gem (can't remember which) misbehaving and making rake exit with 1 more or less every time, also see

"this build":<http://travis-ci.org/#!/thecat/chiliproject/jobs/1308760/L1534>

\* No jruby yet, though I'd propose dropping it altogether until we have someone actively stepping up to support it,

\* The unstable and stable branches aren't in there yet, but that's a trivial change.

**2012-05-11 09:36 pm - Felix Schäfer**

I'd also propose creating an open mailing list we can send the Travis messages to.

**2012-05-13 12:41 am - Jan Vlnas**

I was looking into Ruby 1.9.3 compatibility in CI and from what I have found it could be Shoulda what breaks rake (see e.g. "Ruby 1.9.3 breaks rake test":<http://stackoverflow.com/questions/7957330/ruby-1-9-3-breaks-rake-test>) although "I have

run":<https://github.com/jnv/engines/commit/906ee15651cb9ef4fcdd7d22089ea86e93074ef3> into similar problem with Engines. Anyway adding

@test-unit@ dependency have magically fixed 1.9.3 compatibility" <http://travis-ci.org/jnv/chiliproject-fit>

Maybe the test-unit could be a conditional dependency for MRI 1.9.3?

**2012-05-13 12:45 pm - Felix Schäfer**

Yeah, I had seen that, the 'test-unit' thing alleviates the problem but doesn't really solves it. A @rake ci:travis:prepare@ still outputs at the end:

```
<pre>
```

```
Started
```

```
Finished in 0.000226 seconds.
```

```
0 tests, 0 assertions, 0 failures, 0 errors, 0 pendings, 0 omissions, 0 notifications
```

```
0% passed
```

```
0.00 tests/s, 0.00 assertions/s
```

```
</pre>
```

**2012-05-13 01:47 pm - Felix Schäfer**

I've added a commit to the pull request to test on 1.9.3, though it's not a nice solution I don't mind having the unit-test dependency in the Gemfile.

**2012-05-14 09:20 am - Felix Schäfer**

*- Status changed from Ready for review to Closed*

I had already discussed the issue with Holger and he was fine with the solution so I merged the pull request and configured the Travis hook on Github (with my token because Travis doesn't have organization tokens (yet)). The results are here: <http://travis-ci.org/chiliproject/chiliproject/>
