ChiliProject - Bug # 1086: I want a Prettier Icon

Status:	Ready for review	**Priority:**	Normal
Author:	David Busby	**Category:**	User interface
Created:	2012-07-20	**Assignee:**	David Busby
Updated:	2012-07-24	**Due date:**	

Remote issue URL:	
Affected version:	master
Description:	I found this really cool icon on the web of a red chili - looks awesome. It's also free license.
	http://iconbug.com/detail/icon/2334/red-chili-pepper/
	I'll post a link to my github branch in a few

Here's the patch

https://github.com/edoceo/chiliproject/compare/1086-pretty-icon

2012-07-20 04:11 am - David Busby

- Status changed from Open to Ready for review

2012-07-20 09:54 am - Felix Schäfer

Looks nice, though I find it a little too "cartoony". Honestly, I also grew to like the current icon :-)

Would maybe the possibility to change the icon with a theme or in the administration be an option?

Your icons are all at weird rotations...

That said, the current icon is quite... terrible. I'm not sure I love this new one, but it's a definite improvement.

2012-07-20 06:29 pm - Joel Murphy

I'm not sure if this is an open invitation to make prettier icons... but I'm new to ChiliProject and wanted to contribute. So, I whipped these together in Inkscape today.

- Target version deleted (3.4.0)

Pulling this out of 3.4. Once we have decided on an icon, we can publish it with the next release. However, I honestly doubt it will be version:3.4.0. I'm with Felix in this regard.
