ChiliProject - Bug # 1154: move issue from a project to a subproject

Status:	Open	Priority:	Normal
Author:	paul young	Category:	
Created:	2012-09-25	Assignee:	
Updated:	2012-09-25	Due date:	

Remote issue URL:	
Affected version:	
Description:	Hi,
	I tried to move an issue from a project to a subproject, this is the error message I got:
	Failed to save 1 issue(s) on 1 selected: #55.
	Is it a bug or i'm not doing it right?

Adds a permission 'view wiki edits' so that wiki history can be hidden to certain users (#1154).

A migration automatically adds this permission to roles that were allowed to view wiki pages.
