<b>Created:</b>	2012-10-01	<b>Assignee:</b>	
<b>Updated:</b>	2012-10-01	<b>Due date:</b>	
<b>Remote issue URL:</b>			
<b>Affected version:</b>			
<b>Description:</b> I miss this very useful functionality for project management.  when I have view that is grouped bo some column, it would be very useful to see sum of time estimations for all issues in group and also suma of time spent on those issues. Nice to have would be overal %done (average value?). In addition, it would be useful to be able to summarize customfields with numeric values.
