ChiliProject - Bug # 1183: Project Activity page/section incorrect

Status:	Open	**Priority:**	Normal
Author:	tz tz	**Category:**	
Created:	2012-11-28	**Assignee:**	
Updated:	2012-11-28	**Due date:**	

Remote issue URL:	
Affected version:	
Description:	Under the Activity section of the Project (or the user's page), the actions on the issues in the project only show the _current_ status, not the status of the issue at that specific point in time. For example, bug #1452 was created, then resolved, then rejected; the Activity shows Rejected for all 3 items. Ex:

07:04 am junk project Bug #1452 (Rejected): program crashes os
07:04 am junk project Bug #1452 (Rejected): program crashes os
07:03 am junk project Bug #1453 (New): program crashes os2
07:03 am junk project Bug #1452 (Rejected): program crashes os

It should have been (and shows correctly in the issue's history) as:

07:04 am junk project Bug #1452 (Rejected): program crashes os
07:04 am junk project Bug #1452 (Resolved): program crashes os
07:03 am junk project Bug #1453 (New): program crashes os2
07:03 am junk project Bug #1452 (New): program crashes os
