

ChiliProject - Bug # 1272: Issues --> New saved query doesn't redirect to login page if not logged in

Status:	Open	Priority:	Normal
Author:	Markus Guske	Category:	Issue tracking
Created:	2013-06-18	Assignee:	
Updated:	2013-06-18	Due date:	
Remote issue URL:			
Affected version:	3.8.0		
Description:	<p>*Situation*: you are a not logged in visitor of chiliproject.org</p> <p>*Action*: you open the menu @Issues@ and select the entry @New saved query@</p> <p>*Expected result*: redirect to login-page to login and afterwards redirect to create @new saved query@ - same behaviour like choosing entry @New issue@</p> <p>*Current result*: Return code: 403 - and the URL shows: https://www.chiliproject.org/queries/new?project_id=chiliproject</p> <p>~ Markus</p> <p>P.S.: I have choosen version 3.8.0 expecting you are running this version on chiliproject.org</p>
