

ChiliProject - Bug # 1302: "Send confirmation email on successful incoming email" option not working

Status:	Open	Priority:	Normal
Author:	Rolando Valdivia	Category:	Mail Receiving
Created:	2013-09-26	Assignee:	
Updated:	2013-09-26	Due date:	
Remote issue URL:			
Affected version:			
Description: I have the incoming email configured and working properly, but I don't want to receive the confirmation email when the submission succeeds, just when it fails. The result is the same when I check/uncheck the "Send confirmation email on successful incoming email" I always receive confirmation emails.

This is related to Feature #792

You can't turn the confirmations off.
