

## ChiliProject - Feature # 153: Renaming uploaded files and change their optional description

<b>Status:</b>	Open	<b>Priority:</b>	Normal
<b>Author:</b>	Jan Wedekind	<b>Category:</b>	File uploads
<b>Created:</b>	2011-02-07	<b>Assignee:</b>	
<b>Updated:</b>	2011-02-09	<b>Due date:</b>	
<b>Remote issue URL:</b>			
<b>Affected version:</b>			
<b>Description:</b> This pops up quite frequently from our users here: they want to be able to change the name of a file attached in e.g. the Wiki - or at least be able to add/modify the optional description. They can download and re-attach it of course, but that changes the name of the "uploader", which in collaborative projects looks bad (as if only ever the same person uploads documents).  Since Redmine handles the filename internally anyway differently I think this might be possible.  (I hope assigning the issue was right?)			

### Associated revisions

Merge pull request #153 from dfeyer/master

Fixes for Activity list column alignment

### History

**2011-02-08 10:23 pm - Eric Davis**

- Assignee deleted (Eric Davis)

- Category changed from Wikis to File uploads

I'm not sure if changing the name of a file would work since it's used when downloading the file. We might have to do a rename/move on the filesystem too.

Editing the description would be possible though.

(We aren't assigning an issue unless someone is actively working on it. So "Open + Assigned to: Eric" means "Eric is working on it")

Changing the description would already be a great addition. Thanks for clearing up assignment!
