ChiliProject - Bug # 184: il8n gem needed for install

Status:	Closed	**Priority:**	Normal
Author:	Michelle Murrain	**Category:**	
Created:	2011-02-11	**Assignee:**	
Updated:	2011-02-15	**Due date:**	

Remote issue URL:

Affected version:

Description: I'm getting the following problem trying to install:

<pre>

mpm@sunbear:/var/www/ruby/chiliproject$ rake generate_session_store
(in /var/www/ruby/chiliproject)
Missing the i18n 0.4.2 gem. Please `gem install -v=0.4.2 i18n`
mpm@sunbear:/var/www/ruby/chiliproject$ sudo gem install -v=0.4.2 il8n
ERROR: Could not find a valid gem 'il8n' (= 0.4.2) in any repository

</pre>

My versions:

<pre>

mpm@sunbear:/var/www/ruby/chiliproject$ gem -v
1.3.7
mpm@sunbear:/var/www/ruby/chiliproject$ ruby -v
ruby 1.9.2p0 (2010-08-18 revision 29036) [i686-linux]
</pre>

BTW, this seems to relate to "this conversation about
Redmine":http://www.redmine.org/boards/1/topics/20544.

Not quite related to that discussion, but somewhat.

Anyway, regarding your inability to install the gem, that's odd, as I can find it on "rubygems.org":http://rubygems.org/gems/i18n, version 0.4.2 included.
I noticed you have a rather older version of gem, make sure it's up-to-date and/or that your gem sources are configured properly.

Another thing that will probably get in your way: chiliproject is not tested against ruby 1.9, and I even seem to recall it won't work correctly due to the new string encodings in 1.9.

- Priority changed from High to Normal

- Target version deleted (1.1.0 â€" Bell)

2011-02-15 12:12 am - Michelle Murrain

There were definitely version issues, that I straightened out, and got the i18n gem installed fine. Given that the requirement for this gem is in the installation instructions <bonk head> should we close this ticket?

2011-02-15 08:33 am - Felix Schäfer

We already have "this discussion":/boards/2/topics/69 to ferret out how to handle the i18n problem, so I'll close here.

Thanks for your feedback Michelle.
