

ChiliProject - Feature # 201: List of tasks filtered as OR and not AND

Status:	Open	Priority:	Normal
Author:	Alain V.	Category:	
Created:	2011-02-18	Assignee:	
Updated:	2011-12-18	Due date:	
Remote issue URL:	http://www.redmine.org/issues/4939		
Affected version:			
Description:	Hello Up to now in the list of task you can filter upon some values but the list of filters are List of tasks that has filter1=value1 AND filter2=value2 AND filter3=value3 I think it could be interesting to have the possibility of List of tasks that has filter1=value1 OR filter2=value2 OR filter3=value3 Do you think it is possible? thank you

Fixes:

- * email notifications: host name is missing in generated links (#639, #201)
- * email notifications: referenced changesets, wiki pages, attachments... are not turned into links (only ticket ids are)
- * attachment links and inline images don't work in issue notes

That would sure be an improvement of expressiveness. However, I'm a bit concerned whether it justifies the amount of work that would have to go into this feature. Having OR filters would seriously complicate the UI of the issues filter (even more so the internal implementation). So we would probably only consider it if there would be a strong use-case.

The current filters allow to set almost any combination of values for each field which solves the majority of cases. So I'm more inclined to add some of the missing combinations than to add a general OR.
