

ChiliProject - Feature # 206: Add issue filter for number of journal entries

Status:	Open	Priority:	Normal
Author:	Ian Freeman	Category:	Issue tracking
Created:	2011-02-19	Assignee:	
Updated:	2011-02-28	Due date:	
Remote issue URL:			
Affected version:			
Description:	Allow users to query issues by the number of comments attached to an issue. This allows users to add to important discussions as well as make it easier to see if there are updates to issues they are watching (if they are not receiving email updates).

I've thought about doing this myself. I think there was a small technical issue that needed to be taken care of but if I recall it wouldn't be that difficult.

2011-02-19 01:27 pm - Tim Felgentreff

If we are going to use `acts_as_journalized` someday, this'll be as simple as sorting by version-number on the issues.

2011-02-20 01:08 am - Ian Freeman

By the way I'd like to also be able to add this as a column on the issues page.
