ChiliProject - Feature # 242: Files: move files between versions

Status:	Open	**Priority:**	Normal
Author:	Derek Montgomery	**Category:**	File uploads
Created:	2011-02-28	**Assignee:**	
Updated:	2011-02-28	**Due date:**	

Remote issue URL:	
Affected version:	
Description:	There is no way to move files from one version to another without having to:
	- delete the file
	- reupload the file
	- hack the db to match previous download count
	That leaves little room for error.
	When files are big or have to move regularly it becomes a burden.
