ChiliProject - Bug # 265: [PATCH] Fix for an internal server error on formatting an issue as a PDF in Japanese

Status:	Open	**Priority:**	Normal
Author:	Yuki Sonoda	**Category:**	Issue tracking
Created:	2011-03-06	**Assignee:**	
Updated:	2011-03-06	**Due date:**	

Remote issue URL:	http://www.redmine.org/issues/7794
Affected version:	
Description:	IssuesController#show fails with internal server error when

* params[:format] is pdf
* AcceptLanguage: ja
* @issue.description contains an ASCII control character.

This is because the map SJIS_widths does not have a mapping for control characters and it leads concatenation of a String and nil at vendor/plugins/rfpdf/lib/rfpdf/japanese.rb:182.

The attached patch fixes this problem.
