

ChiliProject - Bug # 280: Issues AutoComplete isn't searching issue ids

Status:	Closed	Priority:	Normal
Author:	Eric Davis	Category:	Issue tracking
Created:	2011-03-14	Assignee:	Eric Davis
Updated:	2011-03-14	Due date:	
Remote issue URL:			
Affected version:			
Description:	Currently the Issues autocompleter only matches an exact issue id or searches the subject. It should also search the id field, so "10" will show issue for: 10, 100, 101, 1010, etc.

[#280] Include matching issue ids in the auto_completer.

Using SQL CAST() to convert the issue ids to strings so LIKE will work properly.

- Status changed from Open to Ready for review

I fixed this with a SQL CAST and an extra condition in the auto complete. Tests pass on Postgres.

Ready for review: <https://github.com/chiliproject/chiliproject/pull/23>

2011-03-14 08:32 am - Felix Schäfer

- Target version set to 1.2.0

- Status changed from Ready for review to Closed

The tests passed on SQLite and MySQL too, merged.
