

## ChiliProject - Bug # 293: Adding issue relations does not always update the list

<b>Description:</b> When adding issue relations, after clicking the add button, the visible list of related issues is supposed to update. This does not always work. At least it fails when adding a 'follows' relation on Firefox 4.0RC1.  What the cause of that is still needs to be investigated, also if it is fully reproducible on every browser.
