

## ChiliProject - Bug # 309: The login screen after lost\_password redirects back to lost\_password after you login

<b>Status:</b>	Closed	<b>Priority:</b>	Normal
<b>Author:</b>	Robert Chady	<b>Category:</b>	User accounts
<b>Created:</b>	2011-03-29	<b>Assignee:</b>	Eric Davis
<b>Updated:</b>	2011-04-20	<b>Due date:</b>	
<b>Remote issue URL:</b>			
<b>Affected version:</b>	1.2.0		
<b>Description:</b>	If you use lost_password, then login at the login screen, you will be taken back to the lost_password screen -- confusing to say the least. This is because back_url() uses HTTP_REFERER if back_url isn't set. I created a simple fix by directly specifying the :back_url in the redirect -- patch attached.		

### Associated revisions

#### 2009-05-03 11:25 pm - Eric Davis

Added the ability to copy a project in the Project Administration panel.

- \* Added Copy project button.
- \* Added Project#copy\_from to duplicate a project to be modified and saved by the user
- \* Added a ProjectsController#copy based off the add method
- \*\* Used Project#copy\_from to create a duplicate project in memory
- \* Implemented Project#copy to copy data for a project from another and save it.
- \*\* Members
- \*\* Project level queries
- \*\* Project custom fields
- \* Added a plugin hook for Project#copy.

[#309] Set the back\_url after sending a lost password so HTTP\_REFERER isn't used

Contributed by Robert Chady

### History

#### 2011-03-29 11:10 pm - Eric Davis

- Target version set to 1.3.0

- Category set to User accounts

I'll add a test to confirm this.

#### 2011-04-20 11:49 pm - Eric Davis

- (deleted custom field) set to 1.2.0

- Status changed from Open to Closed

Added in commit:ed252f7 with a pending test. Unfortunately it looks like I need webrat or capybara to submit the form instead of sending a raw POST request. So the code has been added but the test will need to be pending until we add one of those testing libraries:
