I'd agree with you that login in while already logged should not log you out. I propose <https://github.com/chiliproject/chiliproject/pull/81> to fix this.

Instead of logging out, it will redirect you to the home page if you attempt to access the log page again.

I think I can live with that, but your pull request has some stray commits, care to rebase it to current master?

#### 2011-12-16 08:26 pm - Eric Davis

- Category changed from User interface to User accounts

#### 2011-12-18 07:00 pm - Holger Just

- Target version set to 2.6.0

- Assignee set to Holger Just

- Status changed from Open to Closed

Extracted for commit from the pull request and applied it as commit:b135162.

Thanks for your contribution, Tom.
