<b>Description:</b>	Quoting "Redmine issue #5629": <a href="http://www.redmine.org/issues/5629">http://www.redmine.org/issues/5629</a> : > This patch fixes wrapping problems with text fields (subject and custom text and long text fields) when generating a PDF.  Created it almost 1 year ago, it still hasn't seen the light of day! I'll rebuild it again in ChiliProject to see if it gets a better change over here. :)  _PS: I regularly use the PDF export to send status update reports to clients._

This looks good to me, going to merge it in a minute. The only downside is the issues list PDF export is done to an A4 paper size.

- *Target version set to 1.4.0*

- *(deleted custom field) set to 1.1.0*

- *Status changed from Ready for review to Closed*

Merged into master (commit:a74517b). Thanks for the patch, PDF exports are a lot more useful now.
