History

2011-05-04 04:12 am - Eric Davis

- (deleted custom field) set to <http://www.redmine.org/issues/5831>

- Category set to Issue tracking

There are a lot of missing features in the subtasks section. A few others I want:

- * Filter by parent issue
- * Group by parent issue
- * Display as tree
- * Set parent id from right click menu

I can see about adding this when I start going back through my old patch.

Eric has opened issues for each of the items, I've added them for referencing purposes.
