

ChiliProject - Bug # 373: Issue auto completion returns duplicates

Status:	Closed	Priority:	Normal
Author:	Gregor Schmidt	Category:	Issue tracking
Created:	2011-05-04	Assignee:	
Updated:	2011-05-05	Due date:	
Remote issue URL:			
Affected version:	1.2.0		
Description:	The ID based Auto Completion introduced in #280 returns duplicate results for direct ID matches. This is because the query in "L9": https://github.com/chiliproject/chiliproject/blob/ae0851ddb43a6b213c133f50706023b04f4c075d/app/controllers/auto_completes_controller.rb#L9 and "L12": https://github.com/chiliproject/chiliproject/blob/ae0851ddb43a6b213c133f50706023b04f4c075d/app/controllers/auto_completes_controller.rb#L12 both return the exact match.
