

ChiliProject - Feature # 376: Upgrade the "add files" sections on all other pages

Status:	Open	Priority:	Normal
Author:	Felix Schäfer	Category:	User interface
Created:	2011-05-04	Assignee:	
Updated:	2011-05-29	Due date:	
Remote issue URL:			
Affected version:			
Description:	Forum replies should get the folded-when-loaded "add files" section the issue update form already has. Other places could benefit from this too (e.g.: new issue form).

- Subject changed from *Upgrade the "add files" sections on forum replies* to *Upgrade the "add files" sections on all other pages*

I agree. After using the folded files for a few weeks, I've loving it (especially that I can tab past them).

We should go through all of the pages and replace them. Might also be good to refactor them to a common partial while we are at it.

Not a 2.0.0-RC blocker. We can add it post RC or in a minor release. This would be a good `[[BugMash]]` feature too.
