ChiliProject - Feature # 385: Bulk edit time entries

Status:	Open	**Priority:**	Normal
Author:	Adam Soltys	**Category:**	Time entries
Created:	2011-05-07	**Assignee:**	Adam Soltys
Updated:	2011-05-27	**Due date:**	2011-05-13

Remote issue URL:	http://www.redmine.org/issues/7996
Affected version:	master
Description:	I'd like to pull in some commits that I recently got incorporated into Redmine that implement a context menu for time entries and a corresponding bulk edit form.

I discussed with Eric in IRC and he pointed out a few things that could be cleaned up in the code before it makes it into ChiliProject:

* Docs
* Avoid creating custom hard-coded routes
* Follow REST conventions
* Improve test coverage
* Avoid inline JavaScript
* Don't create broken labels

I'll try to address these concerns and generally clean up the code to the best of my abilities before sending a pull request. Setting version to 1.4.0. If that's not right, let me know.

History

2011-05-07 04:34 pm - Adam Soltys

I branched off unstable and pulled the commits in: https://github.com/asoltys/chiliproject/tree/feature/385-bulk-edit-time-entries

I'll proceed with the code cleanup when I get some time this week.

2011-05-27 03:01 pm - Eric Davis

- Target version deleted (1.4.0)

I'm going to push this back to a later release until you're done Adam.
