

ChiliProject - Bug # 389: Context menu doesn't work in Opera

Status:	Closed	Priority:	Normal
Author:	Daniel Khalil	Category:	User interface
Created:	2011-05-10	Assignee:	Eric Davis
Updated:	2011-05-10	Due date:	
Remote issue URL:			
Affected version:			
Description: The context menu doesn't work in Opera - or actually, it has been disabled for some reason.			
In context_menu.js, line 27:			
<pre><pre> if (window.opera && !e.altKey) { return; } </pre></pre>			
You'd just need to remove that line.

IIRC this is intended as Opera has a policy of always showing the Opera right-click menu on a right-click, and that you have to push the "alt" key for Opera to actually pass the right-click to the webpage.

This has changed with I think version 10 or so of Opera, as this is more or less standard browser behaviour. I removed that line in my installation and am working with that for about a year or so already - thus at least my confirmation that it works.

- Target version set to 2.0.0

- Assignee set to Eric Davis

- Status changed from Ready for review to Closed

This was fixed upstream and is in the unstable branch. commit:2740c67682c23e4c8cd4803cc6ff93f0be96bda2
