ChiliProject - Bug # 402: [AAJ] Check MailHandler

Status:	Declined	**Priority:**	Normal
Author:	Eric Davis	**Category:**	Journals / History
Created:	2011-05-13	**Assignee:**	Eric Davis
Updated:	2011-05-13	**Due date:**	

Remote issue URL:	
Affected version:	
Description:	MailHandler lines 159-ish: might be calling init_journal too late, after the attributes have been set. *Need to test*

History

2011-05-13 08:12 pm - Eric Davis

- Target version deleted (2.0.0)

- (deleted custom field) deleted (unstable)

- Status changed from Open to Declined

Ran the debugger on the unit test, looks like aaj picks up the changes on the issue before init_journal is called so the attributes are still tracked correctly.
