- Status changed from Open to Declined

Nope. Calling `@acts_as_journalized@` in a model gives you a call to `@acts_as_activity_provider@` for free. The call to `@acts_as_journalized@` in `@attachment.rb@` (line 33) provides the "files" activity (lines 38-40). The explicit call to `@acts_as_activity_provider@` (line 42) is only needed because this model provides to types of activities, the explicit call providing the "documents" activity.
