

ChiliProject - Bug # 412: Test errors on 1.9.2 after acts_as_journalized merge

Status:	Closed	Priority:	Normal
Author:	Gregor Schmidt	Category:	
Created:	2011-05-13	Assignee:	
Updated:	2011-05-13	Due date:	
Remote issue URL:			
Affected version:	unstable		
Description:	After the acts_as_journalized, the test do no longer run on Ruby 1.9.2. This is the case on my local machine as well as ci.chiliproject.org. On the one hand, the errors result from an API change in 1.9. Module#instance_methods now returns an Array of Symbols instead of String like in 1.8.7. In @vendor/plugins/acts_as_journalized/lib/redmine/acts/journalized/deprecated.rb@ it is assumed, that the instance_methods returns strings, which is wrong. Furthermore, there seems to be change in the way @require@ works. This was already an issue with commit:17f86d96 and somehow also applies to @vendor/plugins/acts_as_journalized/lib/acts_as_journalized.rb@
