ChiliProject - Bug # 451: Improve flash message for attachment with size greater than the allowed in configuration

Status:	Open	**Priority:**	Normal
Author:	Rodrigo Rosenfeld Rosas	**Category:**	File uploads

Remote issue URL:			
Affected version:			
Description:	I spent some time trying to figure out why I wasn't able to attach some file because the flash message doesn't state the reason why the file wasn't attached to the project. I actually needed to change the code to see the reason. The reason should be stated in the flash message.
