[#463] Pass through Basic Auth in an FCGI setup

History

2011-09-23 08:08 pm - Holger Just

- (deleted custom field) set to <http://www.redmine.org/issues/8590>

- Category set to Documentation

A working rewrite rule for fcgi is

```
RewriteCond %{REQUEST_FILENAME} !-f
RewriteRule ^(.*)$ dispatch.fcgi [E=X-HTTP_AUTHORIZATION:%{HTTP:Authorization},QSA,L]
```

2011-12-18 06:34 pm - Holger Just

- Target version set to 2.6.0

- Status changed from Open to Closed

The example htaccess was updated in commit:6c69081.

Note however, that FCGI is not recommended as an application server. Please use a Rack server like "Passenger":<http://modrails.com>, "Thin":<http://code.macournoyer.com/thin/>, or "Unicorn":<http://unicorn.bogomips.org/> instead.
