

ChiliProject - Feature # 478: Sub groups or Multi-level groups [Patch available]

Status:	Needs more information	Priority:	Normal
Author:	guilhem lettron	Category:	User accounts
Created:	2011-06-16	Assignee:	
Updated:	2012-01-17	Due date:	
Remote issue URL:	http://www.redmine.org/issues/7774		
Affected version:			
Description:	Refer to a ticket in Redmine [[http://www.redmine.org/issues/7774]] It would be great if we can manage sub group for example : -company -> sales --> sales direction --> sales employees -> production --> ... If a new employee arrive, you just have to insert him in the right group "sales employees" for example, and it would aquire any right for his department and for all company. We (my company [[http://www.smile.fr]]) have already done a patch for redmine [[https://github.com/smile-oss/redmine/tree/subgroups]] Don't hesitate to criticize and to use it in ChiliPorject :) Any review would be great

- Status changed from Ready for review to Needs more information

I checked your github link and didn't see any tests. Is there someplace else we should be looking to review?

Hi,

I am another developer in the Smile company, I wanted to know if you where interested by this enhancement.

If yes, we will take the time to add some tests.
