ChiliProject - Bug # 485: Deep link to PDF URL does not work when login required

Status:	Open	**Priority:**	Normal
Author:	Tom Kersten	**Category:**	
Created:	2011-06-18	**Assignee:**	
Updated:	2011-06-18	**Due date:**	

Remote issue URL:	
Affected version:	
Description:	If you visit (or send) deep-link to a URL responsible for rendering a PDF and that URL requires a login, the user is presented with a blank page. ChiliProject returns a 406 error because PDF is not a supported format in the #respond_to block of ApplicationController#login_required. I will submit a patch/pull request shortly.

...I mean ApplicationController#require_login ;-)

2011-06-18 10:24 pm - Tom Kersten

Added a (1-line) patch and pull request "on Github":https://github.com/chiliproject/chiliproject/pull/77 to fix this.
