

## ChiliProject - Feature # 488: Hook for additional formats on Wiki#show page

<b>Affected version:</b>			
<b>Description:</b>	I'd like to have a hook defined so plugins can add formats to the bottom of the Wiki#show view template next to the existing "additional formats" links. A tangible example of how this would be used is for adding a PDF-export link from the ChiliPDF plugin (or...any other plugin, obviously).

Added a pull request for this "here":<https://github.com/chiliproject/chiliproject/pull/78>.

For those interested, you can see the (1-line) diff

"here":<https://github.com/tomkersten/chiliproject/commit/ffc1db8a544da46a112a5f64d9b895a903e16627>

Let me know if there is anything else I can provide which would make accepting this more compelling...

- Target version changed from 2.1.0 to 1.5.0

This is actually going to go into 1.5.0 since it was added to the master branch.
