

ChiliProject - Bug # 517: Remove included lib/faster_csv.rb

Status:	Closed	Priority:	Normal
Author:	Eric Davis	Category:	Libraries
Created:	2011-07-11	Assignee:	
Updated:	2011-08-21	Due date:	
Remote issue URL:			
Affected version:	2.0.0		
Description:	Should use the gem (1.8.x) or the built in CSV engine (1.9). Bundling it in lib/ * prevents us from upgrading it easily * bloats the app size (download and disk, not running memory size)

This should fix it once and for all #517

(Sorry for the commit-noise)

Would work for me.

2011-08-21 05:29 pm - Felix Schäfer

- Target version set to 2.2.0

- Status changed from Open to Ready for review

Yeah, "pull request 100":<https://github.com/chiliproject/chiliproject/pull/100>

Scheduling this for 2.2.0, not sure how additions to the Gemfile fly with semver though, so if anyone thinks it shouldn't go into a minor, please reschedule it for 3.0.

- Status changed from Ready for review to Closed

Had a short chat with Holger on IRC, he agreed we could do it in a minor release, merged in commit:57ecf52.

Just to make sure, I'll see if our install docs have bundler instructions for minor updates.

(the docs tell to @bundle install@ after an update, so everything is good)
