

ChiliProject - Task # 525: Direct Pingdom and related alerts to infrastructure@cp.o

Status:	Closed	Priority:	Normal
Author:	Holger Just	Category:	chiliproject.org Website
Created:	2011-07-15	Assignee:	
Updated:	2011-07-25	Due date:	
Remote issue URL:			
Description: When things happen (as they always do), it's a good idea to have emails send to all the people from the [[Infrastructure Team]]. Thus, please configure our monitoring services to direct alerts to infrastructure@cp.o			
That includes at least:			
* Pingdom			
* NewRelic			

History

2011-07-15 10:02 pm - Eric Davis

- Assignee deleted (Eric Davis)

- Status changed from Open to In Progress

I've updated Pingdom.

NewRelic is using the admin@ account so the mail is being sent to that address. I don't know if anyone wants email from NewRelic, I don't.
