

ChiliProject - Feature # 562: Sending Mail to all registered users

Status:	Declined	Priority:	Normal
Author:	Ferdinand Thommes	Category:	Plugin Request
Created:	2011-08-06	Assignee:	
Updated:	2011-08-16	Due date:	
Remote issue URL:			
Affected version:			
Description:	In our project, after 2 weeks, we have almost 100 registered users, expecting 500 by the end of the year. We would appreciate a way to send out mail to our users, (selective by ticking them, and a button for *ALL*. Right now i am misusing issues for that, but this is very inconvenient, as i have to tick almost 100 users to sent mail to *ALL*		

History

2011-08-16 10:27 pm - Eric Davis

- Target version deleted (2.2.0)

- Category changed from Mail Sending to Plugin Request

- Status changed from Open to Declined

You can use my "System Notifications plugin":<http://theadmin.org/articles/system-notification-plugin-v0-2-0-released/> for this.
