ChiliProject - Feature # 587: Split reposman to a separate gem

Status:	Open	**Priority:**	Normal
Author:	Felix Schäfer	**Category:**	
Created:	2011-08-21	**Assignee:**	
Updated:	2011-12-10	**Due date:**	

Remote issue URL:	
Affected version:	
Description:	As discussed in "this thread":/boards/2/topics/439, @reposman@ should be better tested (tested at all) and probably made stand-alone enough that it can be installed without ChiliProject.

Associated revisions

2008-02-09 05:11 pm - Jean-Philippe Lang

Merged IssuesController #edit and #update into a single actions.

Users with 'edit issues' permission can now update any property including custom fields when adding a note or changing the status (#519, #581, #587).

Is anyone working on this? If not, then we should bump it out of 3.0.0 until it's ready.

2011-12-10 10:50 am - Felix Schäfer

- Target version deleted (3.0.0)

This isn't a blocker for 3.0 indeed, as it can be dealt with separately from any release.

2011-12-10 09:33 pm - Eric Davis

- Subject changed from Split reposman to a sperate gem to Split reposman to a separate gem
