

ChiliProject - Task # 596: Document plugin dependency mechanisms with rubygems/rails 3

Status:	Open	Priority:	Normal
Author:	Felix Schäfer	Category:	Documentation
Created:	2011-08-27	Assignee:	
Updated:	2011-08-27	Due date:	
Remote issue URL:			
Description:	With the switch to rails 3, plugin and core dependencies will fully be managed by rubygems (and bundler), this should be properly documented. (split from #275)
