

ChiliProject - Feature # 621: Display more search results per page

Status:	Open	Priority:	Normal
Author:	James Robertson	Category:	
Created:	2011-09-14	Assignee:	
Updated:	2011-10-19	Due date:	
Remote issue URL:			
Affected version:			
Description:	At the moment only 10 search results are displayed per page. It would be very helpful to be able to view/perform a (browser) 'Find' over many more results than that at one time. (ie. maybe display up to 100 results per page.)

I agree. Perhaps the "Objects per page options" setting could be used for this so you can pick how many to display at once, instead of hardcoding it to a higher number.

"...pick how many to display at once, instead of hardcoding it to a higher number", sounds best. Whatever is easier. :-)
