

ChiliProject - Bug # 651: Gantt issue sorting

Status:	Open	Priority:	Normal
Author:	Mathieu MARACHE	Category:	
Created:	2011-10-11	Assignee:	
Updated:	2013-06-24	Due date:	
Remote issue URL:			
Affected version:	2.3.0		
Description:	The gantt helper does it's own issue sorting that does not check wether the issue.root_id isNil like the comparison operator in the issue model class. changing source:lib/redmine/helpers/gantt.rb#L204 like this corrects the problem on my side : <pre><code class="ruby"> #sort_issues!(issues) issues.sort! </code></pre>
