

## ChiliProject - Bug # 679: Old Commits close current Issues on Import

<b>Status:</b>	Declined	<b>Priority:</b>	Normal
<b>Author:</b>	Alf Gaida	<b>Category:</b>	SCM
<b>Created:</b>	2011-11-03	<b>Assignee:</b>	
<b>Updated:</b>	2011-11-04	<b>Due date:</b>	
<b>Remote issue URL:</b>			
<b>Affected version:</b> 2.4.0			
<b>Description:</b> <p>I'm added ChiliProject as a subproject to a project. The import of the chili-repository closes a new Bug. Not so nice. This is happend third time, mostly with old Redmine Repositories. I have no clue, how to solve this: The imported Projects should be Subprojects. Changing the keywords is nogo because imho track us "fix". Imho the Issuenumbers should a prefix to get rid of that behavior.</p> <p>Affected versions: 2.x</p> <p>* My feature #71 from 2011-086-20</p> <p>* Closed by:</p> <pre>&lt;pre&gt; Revision c01c64e9 Von Jean-Philippe Lang vor mehr als 3 Jahren hinzugefÃ¼gt Let the user choose when deleting issues with reported hours (closes #734, #71):  to delete the hours to assign the hours to the project to reassign the hours to another issue  git-svn-id: http://redmine.rubyforge.org/svn/trunk@1182 e93f8b46-1217-0410-a6f0-8f06a7374b81 &lt;/pre&gt;</pre>			

### History

**2011-11-04 12:25 am - Eric Davis**

- Status changed from Open to Declined

You can "fix" this by changing the "Fixing keywords" in Admin > Settings > Repositories. There is no other way to work around this.

I feared that such an answer comes. ;)
