<b>Remote issue URL:</b>			
<b>Affected version:</b>			
<b>Description:</b>			
I just noticed that in the account registration process, when I register a new account and choose a login name, this login name will not be shown to me again. So for example if I made a typo in the login name I have no chance to notice it.			
Including the login name in the following mails would be a solution.			
* register.text			
* account_activated.text
