ChiliProject - Feature # 696: Refine new query UI for "all projects" and "subprojects"

Status:	Open	**Priority:**	Normal
Author:	Felix Schäfer	**Category:**	User interface
Created:	2011-11-13	**Assignee:**	
Updated:	2011-12-16	**Due date:**	
Remote issue URL:			
Affected version:	unstable		
Description:	The "subproject or not" selector should probably be deactivated when "for all projects" is selected.

- Subject changed from Refine new query UI to Refine new query UI for "all projects" and "subprojects"

Actually, I think it might be better to merge the "for all projects" and "display subprojects" options. That's partially why I used a radio button here.

2011-11-14 05:58 am - Felix Schäfer

That would probably work too :-)

2011-12-10 12:51 am - Eric Davis

Is anyone working on this? If not, then we should bump it out of 3.0.0 until it's ready.

2011-12-16 08:21 pm - Eric Davis

- Target version deleted (3.0.0)

Bumping out of 3.0.0 until the code is ready for this.
