

ChiliProject - Bug # 698: Searching in issue is broken on ruby 1.9

Status:	Closed	Priority:	High
Author:	David O	Category:	Issue tracking
Created:	2011-11-14	Assignee:	Felix Schäfer
Updated:	2011-11-25	Due date:	
Remote issue URL:			
Affected version:	2.4.0		
Description:	Searching for issues by subject (any criteria with input-field) is broken. After searching (clicking apply) the entered text is changed. To reproduce: * click issues * add filter for subject and enter 'something' * click apply * text in the input-field changed to @["something"]@ * click apply again and the text will change to @["something\"]@ Happens with v2.4.0 on ruby 1.9.3, running on 1.8.7 everything works as expected.		

Associated revisions

Roadmap enhancements (closes #697, #698):

- * separate related issues from wiki contents
- * leading h1 in version wiki pages is hidden (done using css, won't work with IE6)
- * smaller wiki headings
- * xhtml validation

[#698] Fix issue queries on Ruby 1.9

2011-11-25 06:45 pm - Felix Schäfer

Merge pull request #123 from mbreit/bugfix/698-issue-query-ruby19

[#698] Fix single-value query atoms in issue queries on Ruby 1.9

History

2011-11-14 01:53 pm - Felix Schäfer

- Priority changed from Normal to High

- Target version set to 2.5.0

- Assignee set to Felix Schäfer

- (deleted custom field) set to 2.4.0

Thanks for the report, I'll see tonight if I can reproduce this.

2011-11-16 01:48 pm - Moritz Breit

I just send a pull request on Github (<https://github.com/chiliproject/chiliproject/pull/123>) which should fix this issue.
