

ChiliProject - Bug # 705: Accessibility: New project navigation

Status:	Open	Priority:	Normal
Author:	Romano Licker	Category:	
Created:	2011-11-16	Assignee:	Romano Licker
Updated:	2011-11-16	Due date:	
Remote issue URL:			
Affected version:			
Description:			
In the new project navigation, we have submenus.			
Clicking on an item unfolds it. Blind users will not recognize this action.			
This is why the first items needs to have the focus. Than, the screenreader will read it.			
Using the keyboard for navigation, this is also quite handy since the user can hit 'enter' twice.
