

## ChiliProject - Bug # 729: UTF8 unsupported in PNG export of Gantt charts (?)

<b>Status:</b>	Open	<b>Priority:</b>	Normal
<b>Author:</b>	Nick Andriopoulos	<b>Category:</b>	Gantt chart
<b>Created:</b>	2011-11-23	<b>Assignee:</b>	
<b>Updated:</b>	2011-12-01	<b>Due date:</b>	
<b>Remote issue URL:</b>			
<b>Affected version:</b>	2.4.0		
<b>Description:</b>	<p>Hello,</p> <p>it would seem that non-english characters are exported as question marks in the PNG export of Gantt charts, instead of the expected characters (in this case, Greek).</p> <p>Is there something that should be present for this to work correctly? Rmagick is installed, as indicated by RMagick available (optional) in Administration/Information.</p> <p>I'd be glad to provide any further information. Thank you in advance!</p>		

### History

#### 2011-12-01 05:02 pm - Felix Schäfer

I can reproduce this. It seems the PDF and PNG export don't support UTF-8 well, or at least the fonts used don't have the expected characters.

Thanks for reporting, we probably won't have time to look into this further until after the release of 3.0, sorry.

#### 2011-12-01 06:41 pm - Nick Andriopoulos

Not to worry, I just stumbled upon this while trying chilly project out, and thought it was worth reporting.
