

ChiliProject - Task # 730: Documentaion: Liquid Markup

Status:	Closed	Priority:	Normal
Author:	Holger Just	Category:	Documentation
Created:	2011-11-25	Assignee:	Holger Just
Updated:	2012-08-20	Due date:	
Remote issue URL:			
Description: The new features of Liquid markup (#604) should be properly documented:			
h3. For users			
* How to generally use Liquid			
* Concepts of tags, variables, and drops and which are available			
* Usage examples			
h3. For developers			
* How to use liquid tags instead of macros, how to port them			
* Difference of HTML-emitting tags and Textile-emiting tags			
* How to register new filters			
* How to register new variables and drops (?)
