

ChiliProject - Feature # 750: Port wiki section edits

Status:	Open	Priority:	Normal
Author:	Tim Felgentreff	Category:	
Created:	2011-12-02	Assignee:	Felix Schäfer
Updated:	2012-01-30	Due date:	
Remote issue URL:			
Affected version:			
Description:	Redmine now supports section-wise editing for Wikis, which enables multiple users to work on the same Wiki page (with limitations). I have applied the required patches to Chili, tests run.

+1, this feature would make my life so much easier. Any chance that this patch makes it into 3.0.X ?

2012-01-30 05:51 pm - Holger Just

It will not be part of 3.0.

Because we introduce `[[Liquid]]` markup in 3.0, detecting "atomic" blocks is much more difficult than with just plain textile. We have to find a reliable way to parse these blocks first. Because of this, the pull request will not work with 3.0 as it is now.
