ChiliProject - Bug # 758: Permissions are only checked for top level menu entries

Status:	Open	**Priority:**	Normal
Author:	Stephan Eckardt	**Category:**	Libraries
Created:	2011-12-08	**Assignee:**	
Updated:	2011-12-08	**Due date:**	

Remote issue URL:	
Affected version:	
Description:	When rendering menu items only the items with actions that the user is allowed to access should be rendered. Due to a bug in the MenuHelper the permission check is only done for top level menu items. Second level menu items, like e.g. the "New issue" item in the project menu are rendered without a permission check.

Support WikiCaps for Trac migrations

Trac wikis support WikiCaps for links to pages. They also use
!WikiCaps syntax to prevent links. Support both.

Uses patch from and closes #758.
